

K-Love serves me and my family as a resident of Kalispell, MT. Changing this radio station to an LPFM would change it into a radio station just like others. We love this station because it's not like others. We don't feel like constantly changing it because of commercials. I have 7 children in my home all week ranging from 16 down to 4 months. All of them listen to this station everyday! During nap times even. The music, people, and messages are vitally important, I know this because of the impact it has on my family and people around me. Please don't change K-Love to an LPFM. K-Love is perfect the way it is. Thank you~April Allphin & gang0
